My VARA App Screen Layaout:

Connect and Disconnect the network socket connections to the VARA Modem. Might be useful if other programs use the modem.

Sends Commands to BBS, L = List New Msg since last login, LM = List My Msgs, LB = List Bulletins, L> WX = List WX Bulletins

Sends BBS Connect command to the VARA modem ctrl port
CONNECT MYCALL BBSCALL [*optional* VIA DIGI1 DIGI2]

Compose new message or bulletin
Button probably should be labled Compose Message

File Settings View YAPP Help

Connect to VARA | Disconnect | Connect BBS | Disconnect BBS | List New | List Mine | List Bulletins | List Weather | Send Message

VARA: Connected LINK: BBS Link Up BUSY: ON PTT: OFF SNR: 19.4 BITRATE: (1) 566 bps RX <<-- STATUS from Modem

Vara Command Monitor This Block is mostly for testing and debuging

```
[data] de N4SD
[data] de N4SD>
[cmd] PTT OFF
[cmd] PTT ON
[cmd] PTT OFF
```

It can be hidden, an option in the view menu, to provide more room for the message list and message text.It displays modem status and commands sent to andreceived from the control port.The entry line allows VARA API commands to be sentdirectly to the command port for debuging.As well as being hideable, the window can be scrolled and expanded in size with the left side controls

Enter VARA API commands and press Enter

```

Solar Radiation Storm Forecast for Mar 29-Mar 31 2026
Mar 29  Mar 30  Mar 31
S1 or greater    5%      5%      5%
Rationale: No S1 (Minor) or greater solar radiation storms are expected.
No significant active region activity favorable for radiation storm
production is forecast.
C. NOAA Radio Blackout Activity and Forecast
No radio blackouts were observed over the past 24 hours.
Radio Blackout Forecast for Mar 29-Mar 31 2026
Mar 29        Mar 30        Mar 31
R1-R2           50%           50%           50%
R3 or greater   10%           10%           10%
Rationale: There is a chance for R1-R2 (Minor-Moderate) radio blackouts,
and a slight chance for an R3 (Strong) event, on 29-31 Mar.
